

Why is the District surveying Food Service Facilities?

The survey has four purposes:

1. To have a record of each facility's name, contact's name, address and phone number.
2. To have a record of each facility's kitchen appliances, sitting capacity and grease recycling methods.
3. To begin a relationship between the District and food service facilities.
4. To allow the District to continue complying with national and state wastewater standards.

My restaurant does not use grease or lard, do I need to complete the survey?

Yes, according to the District User ordinance, the District can request information from any user to determine their wastewater characteristics.

When and where should I return the FSF survey?

The FSF survey is due May 9th, 2008.

It can be faxed to Jason Lewin at (317) 873-0563

Emailed to jason.lewin@ctrwd.org

Or mailed (postmarked May 9th, 2008)
